

HIGH EFFICIENCY APPLIANCES: **SMART** HIGH EFFICIENCY WATER SOFTENER: **PURE GENIUS**

Introducing Culligan® HE.
The smartest way to fix hard water problems.

Culligan

better water. pure and simple.®

BE SMART. CHOOSE THE SOFTENER THAT USES

For high-efficiency water softening, nothing can match the intelligent design of the Culligan HE.

With patented technologies to optimize salt, water and electricity consumption by up to 46%*, it can save you money. Even better, it can improve your daily life. Enjoy fresher laundry and spotless glasses. Do less cleaning and scrubbing. Increase water heater efficiency. And more.

Is hard water leaving its mark on your life?

It's not difficult to find the evidence. Stubborn spots on glasses and shower doors. Unsightly rust stains on fixtures. Undrinkable tap water. A clogged shower head. Stiff, faded laundry. Odds are, hard water is the cause of these and other problems. Fortunately, there's an easy solution:

The Culligan HE.

Introducing the world's smartest water softener.

Just how smart is the Culligan HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness. Here are just a few of the ways it can make your life better:

Minimize salt refills.

Did you know you could save up to 50% on salt use with Culligan HE? That's a lot fewer bags to lug. And a lot less money to spend.

UP TO 46%* LESS WATER, SALT AND ENERGY.

Always know how long your salt will last.

Culligan HE will tell you exactly how many days remain until you run out of salt, and when you need to refill.

Get “set it and forget it” convenience.

Our Aqua-Sensor® technology automatically adjusts to changes in water conditions—no need to reset the system throughout the year. With an optional modem,

Culligan HE will even alert your Culligan dealer if salt is needed or your softener needs service so the dealer can arrange a service call before you even knew there was an issue!.

Control your softener from anywhere in the house.

Minimize trips to the basement with our remote display. It warns of any problems and gives you push-button control over functions—like activating the electronic bypass valve to water your lawn.

Adjust the feel of your water.

Our unique Dial-a-Softness® control ensures that your water is always the way you like it, never too soft or too hard.

Backed by the most trusted name in water.

At Culligan, we’ve been committed to providing superior water treatment products for over 70 years. Our units are tested to the highest standard, use corrosion-resistant parts, and offer state-of-the-art electronic controls and innovative valve design. Just as important, they’re supported by your friendly Culligan dealer, a local water professional.

PRODUCT SPECIFICATIONS

Patented smart technology:

- Culligan's proportional brining allows your softener to only regenerate that part of the resin bed that has been exhausted, which reduces salt usage.
- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or the remote display.
- Patented Culligan Aqua-Sensor® technology automatically adjusts to changes in water conditions so the softener only regenerates when needed, saving you salt water and money.
- Our smart brine tank automatically monitors salt levels and tells you how many days of salt are remaining.
- Exclusive Culligan Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display with digital clock lets you know your softener is working and warns of system malfunctions.
- Culligan's Dial-a-Softness® Valve allows you to customize the "feel" of your water, so it never feels too soft or too hard.

Remote display: optional remote display makes it possible to control and monitor the softener from virtually anywhere in the home†.

Optional modem: can alert Culligan dealership if salt is needed or softener needs service.

Exclusive reliable design:

- Exclusive, non-corrosive valve with 6 cycles. The motorized pistons provide more reliability than rotary valve systems.
- High-impact Quadra-Hull® Tank stands up to outdoor use with a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty**.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.

Cullex® resin media: Assures stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.
