

Trust The Water Experts®

*Quality products
and services you
can count on.*

For over 65 years, Culligan has led the water treatment industry in innovation and service. Culligan products are produced with world-class quality backed by solid warranties** and the most experienced installation and service technicians in the industry.

Your local, reliable Culligan dealer will perform a complimentary, no obligation water analysis and help you choose the system that is just right for your home and family. Now that's service!

Why Millions Trust Culligan to Deliver Better Water

- ✓ All Culligan products are backed with a 100% Satisfaction Guarantee. If you're not completely satisfied within 30 days from the date of purchase, simply notify your dealer for a full refund.
- ✓ Your local Culligan Man® has a full-line of quality water softeners, filters, drinking water systems and bottled water to fit any need.
- ✓ Culligan is ISO9001 certified. Manufacturing takes place under exacting world-class quality control.
- ✓ Culligan products have the industry's most state-of-the-art features because we maintain our own extensive research and development facility. No other water treatment company holds as many patents.
- ✓ With over 1,100 dealers worldwide in more than 75 countries globally, a *Culligan Man* is just around the corner to make sure you receive the Culligan water you've come to enjoy.
- ✓ Your local *Culligan Man* offers salt delivery, filter changes, financing and more, making Culligan a full-service water treatment company.

The *Culligan Gold Series of Cullneu*, and *Cullar* Water Filters have third party validation by WQA (WQA Gold Seal) and UL which assures your Culligan Filter has been manufactured under the highest of industry standards.

Better Water Means Better Living

*Discover all the
benefits of a cleaner,
healthier, easier
way of living
with the Culligan
Gold Series Whole
House Water Filters.*

Problem water* takes on many different aspects: the bad odor, the hazy look of too much sediment in the water, and the corrosive effects of water with a low pH. All different.

Culligan has effective solutions to these and other water problems you may have. All Culligan® filters are customized to handle your specific type of problem water.

***Filtr-Cleer* Water Filters ... For Taking Care of Sediment Problems.**

Cloudy, hazy water gets that way due to sediment in the water. The Culligan *Filtr-Cleer* water filter removes dirt, silt, clay and other types of sediment from your water supply. Not only that, the *Filtr-Cleer* filter is four filters in one. They work at different levels, stacked on top of each other, each removing a particular size of sediment particle. All you end up with is good, clear, top quality water.

The Accusoft® Microprocessor regulates backwash to suit water usage and degree of suspended matter. Frequency or length of backwash can be adjusted easily if water conditions vary.

Absolutely no cartridges to change or clean. The *Filtr-Cleer* filter treats all the water in your house, not just water from one faucet.

***Cullar* Water Filters ... For Taking Care of Taste and Odor Problems.**

Cullar filters are activated carbon filters designed to reduce elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine. They also work against most discoloration problems.

***Cullneu* Water Filters ... For Taking Care of Acid Problems.**

Acid water, or water with low pH, can wreak havoc on your pipes and porcelain fixtures. The acids eat away at the iron and copper on pipes and unlined heaters, leaving behind red or blue stains. The *Cullneu* filter reduces the stains and pipe damage by neutralizing the acids in your water supply.

Exclusive Culligan Gold Series™ Design Technology

The *Culligan Gold Series* Water Filters are built with state-of-the-art features to deliver the finest conditioned water for your entire family.

The full-flow one inch system meets plumbing standards and allows you to run numerous water sources simultaneously without lowering the flow rate or pressure.

Bypass the System

The one inch Cul-Flo-Valv® lets you bypass the system for uses not requiring filtered water—such as watering the lawn—without losing pressure.

Reliable Valve

Exclusive, non-corrosive 5-cycle motorized control valve directs water flow during service and regeneration cycles.

Maximum Efficiency

Cullneu, *Cullar*, and *Filtr-Cleer* media provides maximum water filtering capacity, stability and long life.

Fingertip Programming

The low voltage, fully programmable Accusoft® Microprocessor offers easy data entry performance options that can be set at the touch of a button, to meet individual needs. All programming is safe from most power interruptions and surges.

Conditioned Water for Everyone

The Guest Cycle™ recharge feature provides an extra supply of conditioned water when there are more people than normal in the home.

Culligan Exclusive Quadra-Hull™ Tank With Limited Lifetime Warranty¹

Designed to provide the highest protection in the industry, our exclusive Quadra-Hull™ tank has four layers of construction.

¹ The *Quadra-Hull* tank and *Cullex Resin* are backed by the *Culligan Limited Lifetime Warranty*. The terms of product warranties vary and may be modified from time to time. Culligan will provide a copy of same upon request.
